LEAVE STONES FOR CAIRN ON RAILWAY STR.

On June 20th the Pile Will Be Hauled to Location and Placed Ready for Dedication During Jubilee Festivities

One of the events in connection with the Diamond Jubilee Celebration here is the erection of a cairn on the Peace Hills, in commemoration of the treaty of peace between the Blackfeet and Cree Indians, from which these hills derive their name.

This treaty was made and the hatchet buried in the same year as Confederation—1867. Therefore it is very appropriate that the cairn be dedicated at the same time as the Confederation celebration.

It is proposed that everyone interested, and that means everyone in the Wetaskiwin district, be asked to bring a stone or boulder to be used in the building of this cairn.

The committee in charge ask that stones be brought in before June 20th and left on Railway Street, opposite Power House. After that they will be hauled to location of cairn and built ready for the dedication ceremonies on July 2nd.

Don't put this off. Bring in a boulder and have a part in this interesting event. The more boulders provided, the larger the cairn will be.

Town Topics

The Hospital Aid Society will meet in the Nurses' sitting room on Tuesday, June 7, at 4 p.m.

* * *

Curt Smith, of the Driard Hotel, made a business trip to Calgary the fore part of the week.

* * *

Mrs. H. C. Cooke has been in Edmonton the past week, the guest of Dr. and Mrs. G. E. Storey.

* * *

A. E. Wynne has been laid up for several days with an attack of illness. He is now improving nicely.

* * *

Mrs. C. I. Miller arrived from Oklahoma this week and will spend the summer visiting relatives and friends in the district.

* * *

Mrs. Pritchard, who was operated on at the Wetaskiwin Hospital recently, has returned home and is convalescing nicely.

* * *

The many friends of Mrs. J. E. Fraser are glad to learn that she is convalescing nicely after her recent serious operation.

* * *

The Scandinavian Ladies' Hospital Aid will meet at the home of Mrs. N. J. L. Bergen, on Tuesday afternoon, June 7th, at 3:30 o'clock.

* * *

Mrs. Elmer Campbell, of Edmonton, is spending a few days visiting her daughter, Mrs. E. Merner, and, renewing the acquaintance of her many Wetaskiwin friends.

* * *

George H. Robinson met with a painful accident on Monday, when a wagon wheel ran over his foot. He is confined to bed, but expects to be around again in a few days.

* * *

Mr. and Mrs. B. M. Parker and family left this Thursday morning on a trip to Seattle, Los Angeles and other places at the coast. They expect to be home for the Jubilee Celebration.

* * *

A recital will be given by the junior piano pupils of L. D. Wright in the First United Church on Friday afternoon of this week, at 4:30. All parents and friends are invited to attend.

* * *

Mr. and Mrs. Dewey Soper, of Ottawa, arrived in the city a few days ago to visit the former's sister, Mrs. W. East, the parents of Mrs. Soper, Mr. and Mrs. Fred Freeman, and other relatives and friends.

* * *

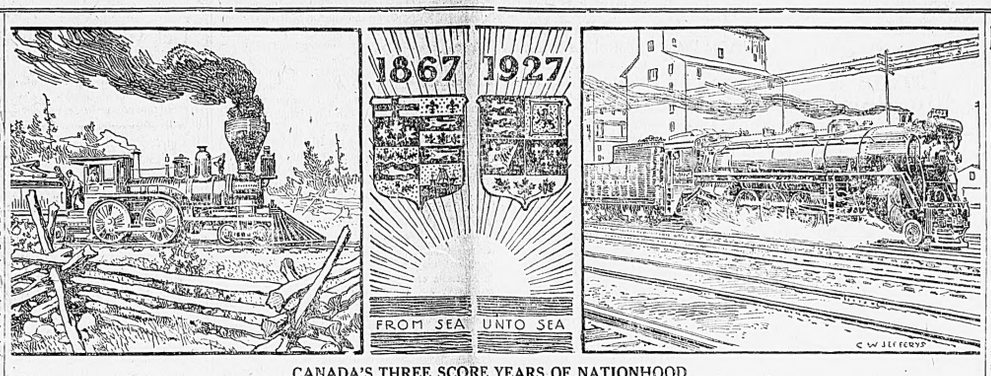
Mrs. (Rev.) M. L. Wright, formerly of Wetaskiwin, won a gold medal recently at the Alberta Musical Festival in Calgary, in the open composition class. This is the third medal Mrs. Wright has won at different Alberta Festivals.

* * *

H. J. Wells left for Calgary on Tuesday to accept a position as assistant manager of Eaton's Groceteria. Mr. Wells is a first-class grocery man and no doubt will make a success in his new field of activities. The best wishes of his host of friends go with him. Mrs. Wells and family will remain in the city for the summer.

* * *

Among the cars sold this spring by Norman W. Fead are the following: Pontiacs to S. J. Deans, Millet; Wm. Teckett, Hobbema; Philip Bjorkgren and Victor Johnson, Malmo; R. W. Manley, Leyi Evans and Oscar Mosesson, of Wetaskiwin and George Calder, of Innisfail. Dave Baker, of Wetaskiwin, was the purchaser of a McLaughlin.



CANADA'S THREE SCORE YEARS OF NATIONHOOD

Very literally are the Provinces of Canada bound together by bands of steel. As a matter of fact, British Columbia became a Province of the Dominion in 1871 under promise of railway connection, though the actual linking-up did not become a reality till 1885. The enormous development of railroading has been one of the outstanding features of the sixty years that have elapsed since Ontario, Quebec, New Brunswick and Nova Scotia united under one central government in 1867. At that time the newborn Dominion boasted 2,278 miles of track; it has over 42,500 miles today. In equipment, too, the evolution has been great. The old wood-burner of 1867, though capable of very creditable speed, was a pigmy in size, weight and strength compared with the huge locomotives of today. Mr. C. W. Jeffreys, Canada's foremost historical artist, here graphically depicts the changes that have taken place.

Speechless Cops to Do Their Stuff on Streets

Chief Kingzett's Suggestion Approved by City Fathers—Block 75 Selected as Site for Jubilee Park, to Be Dedicated July First—City Acquires Much Property at Tax Sale

A regular meeting of the City Council was held on Tuesday evening, with all members in attendance.

After the adoption of the minutes of the last meeting, a letter was read from Mrs. Jevne, offering to purchase lots near her home. Council agreed to sell lot at $25, with taxes payable from date of purchase.

The offer of Mrs. Brown to purchase a lot on Lorne Street, adjoining her residence, was accepted.

E. H. L. Thomas offered $10 for a lot near his residence. Accepted.

Premier Brownlee wrote re Jubilee Celebration Committee. Letter filed.

Mrs. A. Patenaude wrote re payment of taxes. Filed.

Odell and Russell wrote requesting that the property of the late A. Rehaume be not disposed of for a reasonable time. Request will be granted.

The annual fees to the Union of Municipalities were authorized to be paid.

The Board of Public Utilities wrote agreeing to the proposed action of Council in suspending collections of Service Tax this year, also asking for information re electric light department. Information will be forwarded.

Mr. Canton wrote regarding hydro-electric development of the Maligh river in Jasper Park, and requested that a resolution be passed to the effect that a thorough investigation be made of the streams in Central and Northern Alberta for hydro possibilities. Council agreed to pass resolution.

The applications of C. M. Rice, for alteration to his residence, Fritz Rasmusen for blacksmith shop, and C. Smith, for addition to hotel, were granted.

The Wetaskiwin Creamery Co. wrote re catch basin on their corner, offering to pay the cost of a gutter. Referred to Public Works Committee to act as soon as possible.

The following accounts were passed for payment: General, $304.01; Electric Lights, $238.85; Waterworks, $73.34; Suplementary, $386.86.

Supt Watson reported on the condition of the hospital roof, and made recommendations in connection with same. Report was received and tenders will be called for.

Chief of Police Kingzett submitted his report for the month of May. Received and adopted.

Chief Kingzett wrote requesting that a silent policeman be placed at the busiest intersection of the city, and submitted a sketch for their construction. The Council agreed to have policeman installed at the corner of Railway Street East and Pearce Street, also at the Driard, Bank of Montreal and Dr. McColgan's corners, under supervision of Public Works Committee.

Dr. N. A. Johnson, R. W. Manley, W. H. Odell and Chas. Boyer, the Parks Committee of the Jubilee Celebration Committees, addressed Council asking that block 75, on Pearce Street West, be set aside as a Jubilee Park, that a Park Committee be appointed, and city break land this year, and next year a landscape artist be employed to lay out the ground. The dedication of park will take place on July 1st, when a parade will be held. After discussion it was decided to grant request of deputation.

Capt. Baker addressed Council re having permanent records of Jubilee Celebrations. Council agreed to assist Mr. Baker with preparations of the reports and records.

Supt. Watson reported that he had opportunity to sell coal hopper at power house for $150.00. The offer was accepted.

The Secretary-treasurer reported on tax sale that all lots on list, with the exception of four, were bought by city. Report adopted.

It was decided to rebate the auto license of Sergt. Broadribb, as he was assisting the city police.

Chief Kingzett will be asked to get list of all auto owners in the city for information of the Assessor.

The Public Works Committee recommended that car owners be requested to park their autos on Railway Street West, instead of Pearce Street, especially on Saturday evenings. Adopted.

The Public Works Committee was instructed to fill in two bridges on Miquelon Street, as well as cover manure on East side.

The City Solicitor was instructed to enter suit, where necessary, for collection of delinquent auto license fees.

The Finance Committee was empowered to purchase a flag for new pole to be erected on proposed park.

The Chief of Police was instructed to have seats which were removed from Alexandra School, replaced by those who took them away.

After deliberation it was agreed to purchase the new tractor on the cash basis, namely $1710.72, less $110.72 allowed for old tractor. $800 to be levied this year and the balance next year.

The Council went on record as not being able to assist financially in any boulevarding work this year.

The Parks Board was named as follows: The Mayor of the City, the Chairman of the Parks Committee, and Messrs. Chas. Boyer, R. W. Manley, W. H. Odell, and Dr. N. A. Johnson.

Bylaw No. 566, relating to Herso

Bylaw No. 566, respecting the sale of property to Verna Cunningham, was read three times and finally passed.

The meeting adjourned.

Obituary

JOHN RAZON WILLOWS

One of the first white settlers of the Wetaskiwin district passed away at the home of his daughter, Mrs. Ardley, of Tees, on Saturday, at the age of fifty-eight years. He was born at Banockburn, Ontario, and at the age of two years went with his parents to Nebraska. He resided there until the year 1892, when he came to the Wetaskiwin district and homesteaded about four miles west of the city. After getting his patent, he moved to town, where he engaged in the stationery business for a time, later building the first skating rink erected in Wetaskiwin. About fifteen years ago he accepted the position of manager of the Carlisle farm, southeast of the city, and it was while thus engaged that he met with an accident, which rendered him a cripple.

He leaves to mourn his demise a widow, and family of seven children, namely, Mrs. Ardley of Tees; Mrs. Frank Johnson of Edmonton; Lillian, nurse, at Lamont; Fairy, who is attending Normal School at Calgary; and James, John, Frank and Robert, at Hoadley; two brothers, James Willows of Dorenlee, and Harvey D. Farris, of Spokane, two sisters, Mrs. Dodson, of Idaho, and Mrs. Noble Oliver, of Big Valley, Alta., and his aged mother, Mrs. Thos. Willows, who is now visiting in Spokane. His father predeceased him a few months ago.

The remains were brought from Tees on Tuesday afternoon's train, and the funeral took place from the First United Church upon the arrival of the train. The service was conducted by Rev. A. L. Elliott, and many of the old-timers assembled to pay their last tribute of respect to their old and esteemed friend. The pall bearers were all early settlers, namely, Messrs. Wm. McCallum, George D. Wallace, R. M. Angus, Frank Lucas, J. F. Richards and Alex Cummings. The interment took place in the Wetaskiwin cemetery.

The flowers were beautiful, among those sending tributes being Mr. and Mrs. Cadle and Mr. and Mrs. Wetherall of Tees; the Wetaskiwin Old-Timers; Mr. A. Ardley, of Edmonton; Mr. and Mrs. Chas. Condie of Wetaskiwin; Mr. and Mrs. R. Barnhill and Robert and the Ladies' Aid of Tees.

BANKS CLOSED ON FRIDAY

The banks and government offices in the city will be closed on the King's birthday, Friday of this week.

Interesting Talk on Travellers' Aid

Dr. Sara B. Detwiler, of Kitchener, Ontario, Travellers' Aid lecturer for Canada, gave an instructive and interesting address to the ladies who met in the United Church Monday afternoon, May 30th.

Travellers' Aid is rescue work, based on the principle of credentials. The educational part is the greater work. It became internationally organized in Canada and the United States in 1916. The Province of Alberta leading in Canada.

Linked up with the Church through the aid of committees, it becomes a preventative work, which may be linked up with community work and brought in contact with the outside world. This makes the co-operation of the smaller places necessary, even though conditions were always as secure as apparent. Many instances, however, personally known to the speaker and her friends were given in proof that junction points for example are not so safe for the unwary traveller as may appear. Hence the educational work, best done by the mothers in the home, is stressed.

The work, at first taken up to protect the travelling public, has become largely centred on the protection of young women and girls. It is estimated that 1500 girls disappear annually between Chicago and New York. An ad. in a newspaper is often a trap, a pleasant travelling companion may prove a false guide. But the person more accustomed to the ways of the outside world will likely know her objective point before starting and get in touch with the Travellers' Aid, which may be linked up for her benefit all along the way. Good situations are often secured by this agency quietly, since all the work is confidential.

The framed card placed in stations with the address of the local T.A., is a suggestion of Dr. Detwiler. The emblem corresponds with that on the badge of the T.A.

Height of Absentmindedness

The man who leaves home to catch a train, forgets his watch—then pulls it out to see if he has time to go back and get it.

Deluges Hampering in Three Grain Provinces

Means Further Reduction in Wheat Acreage, Particularly in Manitoba, Warm Weather Needed—Wheat Seeding Completed in Many Parts of Alberta—Early Sown Wheat Up Several Inches

Winnipeg, May 30.—Further rains fell in all three provinces of the Canadian West during the past week, precipitation being heaviest in the central and southern portions, and lightest in north-west Alberta, according to the weekly report of the Canadian Pacific agricultural department here. Work was suspended during the greater part of the week, and in many sections of the west three or four days of good drying weather will be necessary before operations can be resumed. This will mean a further reduction in wheat acreage, particularly in Manitoba, which has apparently experienced more heavy rains this spring than either of the two other provinces. Continued warm weather is the urgent need now, for with this, growth will be sufficiently rapid to largely offset the delay in seeding, as soil moisture is abundant everywhere and in this regard conditions were never more favorable. Early wheat is from two to four inches high, and of healthy colour and even stand. Pastures have been backward, but cattle are subsisting on what is available and warm weather will bring in an abundance of grass before long.

The situation in lowly lying sections in Manitoba is serious, meaning considerable reduction in wheat acreage, in some instances entirely eliminating wheat as a crop this year. Estimates vary greatly as to the percentage of decrease in the wheat acreage that will be ultimately recorded, some districts showing as high as 80 per cent decrease. Taking the whole of the province into consideration, it seems reasonably certain there will be a 20 to 25 per cent decrease in the area under wheat. Averaging the province, over 85 per cent of wheat is now in and 35 to 40 per cent of the coarse grains. Early sown wheat is three to five inches above the ground.

Little seeding has been done in Saskatchewan since last week's report, about 80 per cent of the intended wheat acreage having been put in and probably 35 per cent of oats and barley. Seeding operations cannot be resumed extensively before Tuesday or Wednesday owing to rain. Some districts in the north report 15 to 20 per cent increase in wheat acreage, but indications for the entire province are that a ten per cent decrease will be recorded. Crops while later than usual, are starting off with much better than average prospects, and pastures are affording good grazing with the result that stock is making rapid gains.

Wheat seeding in many parts of Alberta is completed, and the average will run from 90 to 95 per cent. Coarse grain seeding has proceeded where soil conditions permitted. Early sown wheat is up four to five inches, exhibiting good colour and healthy stand. Many districts show increased wheat acreage. Contrasting with this, however, many localities record decreases. A careful survey indicates that the total wheat area will show a decrease in the neighborhood of five per cent as compared with last year. The rye crop is doing exceptionally well and looks promising. Grass on the range is coming along rapidly and stock commencing to thrive. Practically one hundred per cent of sugar beet acreage has been seeded and a large part of this crop is up.

In British Columbia continued warm weather is all that is needed to promote rapid growth. Small fruit and berry crops look promising, and while the yield per acre will probably be less than last year, there is a great bearing area, so that the total crop should be about equal, if it does not exceed that of 1926. Strawberries promise a good crop, but large shipments will not be made till June 15th. Raspberries and loganberries suffered light winter injuries. Extent of damage to fruit trees in the Okanagan will probably not be so great as expected.

INDUSTRIAL AID BILL NOW AVAILABLE TO MUNICIPAL BODIES

EDMONTON, May 27.—The Industries Assessment Act, as amended by the last legislature, has been proclaimed and will go into effect on June 1. This act was first passed in 1926, but was never put into operation.

Calgary was the first municipality in the province to take advantage of it and, on the request of that city, some important changes were made in the act by the 1927 legislature. It now goes into action.

Under the terms of the act, municipalities, villages, towns and cities may pass by-laws fixing the assessment of improvements to be erected during the three years 1927 to 1929 by persons carrying on or proposing to operate industrial establishments within the municipal bounds. Such improvements are to have an actual cash value of not less than 25 per cent of their value.

The assessment is to be for the years 1927 to 1933 only and will not be renewable.

It is expected that the operation of this act will have the effect of encouraging industrial enterprises of various kinds throughout the province. The act provides, however, that it will not apply to land assessments, but to improvements only.

PROTEST IS LODGED RE ALBERTA PARKS

Ottawa, May 27.—Hon. Charles Stewart, minister of the interior, has received a protest from the Alberta government over the subject of Canadian National parks within the boundaries of the province of Alberta.

Objection has been raised because the federal authorities have added 960 acres of big game hunting land to the Jasper National park, thus bringing the additional area under National parks regulations.

Alberta is opposing the loss of the territory and, through Premier Brownlee, is asking for a complete re-survey of the parks area, including the Rocky Mountain park, by a joint board.

This is in view of the prospective transfer of Alberta natural resources and in order that the parks question may be satisfactorily adjusted between the two governments.

WOMEN'S INSTITUTE

The next regular meeting of the Women's Institute will be held at the home of Mrs. Herbert Miller, Camrose Trail, on Friday, June 10th, at 3 p.m. All desiring to go are requested to notify Mrs. H. J. Montgomery, or Mrs. A. H. Liversidge.

KIWANIANS TO MAKE EXHIBIT AT EDMONTON

Decision Made at Weekly Luncheon—George James Delivers Address on "Ice Refrigeration or Cold Storage."

At a meeting of the Wetaskiwin Kiwanis Club on Tuesday evening, the question of entering an exhibit from this district at the Edmonton Exhibition was considered, and it was decided to place an exhibit in competition again this year, and Kiwanian E. Rasmusen will take charge of the preparations.

Rotarian "Bill" Rushton, of Camrose, who was a visitor, spoke briefly and extended the greetings of the sister club.

Kiwanian George James gave the address of the evening, taking as his subject "Ice Refrigeration or Cold Storage." He spoke very entertainingly and explained how ice was made artificially. He thought refrigeration was one of the best inventions of recent years, as it was possible to keep temperature in a room for years without a variance of one degree. This was very important in storing eggs and other perishable products. Ice cream was now being shipped by refrigeration rather than having it packed in ice. In a few years it will be as common in the homes as radio is today and will be much cheaper than ice.

Town Topics

Mrs. A. L. Elliott will not receive again until October.

* * *

Crooked Lake Ladies' Aid will meet at the home of Mrs. C. M. Turnquist on June 9.

* * *

Messrs. Richard and Roy Ballborn attended the stock sale at Lacombe on Tuesday.

TEN PER CENT. JUMP IN PRODUCTION WILL KILL CANADA'S MART

Wheat Expert Claims That Pool Operates on Grain Exchange as Any Other Grain Trading Company; Says Dominion Cannot Control International Market

Edmonton, May 28.—With the total wheat production of all the grain-growing countries of the world at the three billion bushel mark, and with Canada's production 400,000,000 bushels, an increased production of 10 per cent by the other grain producing countries would make every grain market in the world independent of Canada, declared Dr. Robert Magill, secretary of the Winnipeg Grain Exchange, and internationally known wheat marketing expert, when addressing the Board of Trade at the Macdonald Hotel on Friday.

Dr. Magill also stated very plainly and forcibly that the Alberta Wheat Pool was today operating on the grain exchange in precisely the same manner as other grain companies, dealing in futures, selling short, and exercising every privilege of a member of the exchange, exercising only its own judgment in its speculations.

"Of the grain produced by the world, only 700,000,000 to 800,000,000 bushels enter into international trade. Of this amount Canada provides 300,000,000 bushels," he declared, "but an increase of 10 per cent in the world's production is not unthinkable, and we must not lose our balance or sense of perspective. The world did without our wheat until a few years ago, and the world may yet show us that she can do so again."

Making no set speech, but dealing only with one or two of the aspects of the marketing of grain, Dr. Magill held that it was a fallacy to think that Canada could control the wheat prices of the world, or that any new ideas of grain marketing were being put into practice today, as compared with the past.

"Although blamed for all the trouble connected with grain marketing, the Winnipeg Grain Exchange is, in reality, a very simple thing," he said. "You can form a grain exchange in Edmonton or anywhere else for that matter. Any half-dozen men can form one. They don't need a charter and don't even need to be incorporated. All the Winnipeg Grain Exchange does is to form a trading floor, equipping it with telephones and telegraphs, making its brokerage commission rules and rates. It has machinery for arbitration and for seeing that contracts entered into by its members are carried out, and it provides information regarding crop conditions and grain movements all over the world.

"The exchange does not deal in grain in any way. It manages no elevators; owns no flour mills; makes no prices, and does no business whatsoever in that respect. It is simply a piece of machinery to be used by the grain traders according as their judgment dictates. Every piece of information that comes into the exchange is posted for the benefit of all, and the exchange is international in membership, international in its functions and international in its machinery."

Dr. Magill also made it plain that the exchange has no privileges in law and that no one is compelled to join it.

"Just as soon as it fails to function by filling a public need it will cease to be and will disappear," he declared.

Dealing with Canada's grain marketing, Dr. Magill pointed out that there was no market in Australia or South America for Canadian Wheat, while in the Orient there was only a small market which would remain small for many years to come. Manchuria, China and India were all large wheat producing countries, the latter alone producing as much wheat as western Canada, but the Orientals were not only not used to using wheat as a food but were also unable to afford it, so that the demand there would always be small and it is a mistake to look upon that market, for years to come at least, as a market for Canadian wheat.

In Europe where the greater market was, it must not be forgotten that the favorite food of many European peoples was not wheat but rye. This was true of Russia and Germany in particular. In Ireland potatoes filled the need and in the Orient rice was the great competitor.

"There is nothing the war showed us more than that other foods can be substituted for wheat, and when we go out to sell our wheat crop in Europe, where the chief market lies, if we put too high a price on it, and a price that is out of line with that of the other food crops, we cannot sell it,' he declared. "There are limits beyond which the people will not go if we try to get extortionate prices. We would have to control the rye, rice, oats, potatoes and other foods if we want to control the price of wheat."

Dealing with the pool system of marketing, Dr. Magill questioned if any new system was being put into effect. He compared the pool method of handling grain through line elevators, and pointed out that money advanced to pool members for their wheat was money borrowed from the banks on the security of the elevator companies.

"It is risky," said Dr. Magill, 'for if the advance is high, and there is a fall in the market so that the price of wheat is below the advance, there is a doubt as to whether the banks would be able to collect. How far, then, could the pool get without the elevator companies?"

In this respect Dr. Magill also pointed out that the pool was a member in good standing on the Winnipeg Grain Exchange, the Lake Shippers' Association, and of the Exchange Clearing House, and that it operated on the exchange just the same as any other concern trading in wheat.

"It has two tickers from the floor of the exchange to the office of the manager of the pool, and the pool buys and goes long, and sells and goes short, and operates its membership just as any other member does," he said. "I do not blame the pool for this, but how far does it differ from the old methods of marketing wheat? Any measure of success that it has had is because of its contract with the line elevators and its membership in the exchange and because it makes more and more use of the established and tried methods of the grain exchange."

Exploding the fallacy that the pool holds back wheat and controls the movement of grain to market, Dr. Magill stated that shipments were being made to Europe just as before the pool came into existence, and if anything the grain was being brought on the market quicker than before.

"There will be fluctuations in the price of wheat just so long as there are fluctuations in the weather, and the main difference in the pool method of marketing is that all grades are pooled and each grower gets the same price. Only a long test can decide if the pool is to survive, but wheat marketing is not simple.

"It is affected by everything affecting social conditions, and while I concede that the right of the farmer is unquestioned to try any method by which he can improve his position, and if he can improve his position so much the better for us all, I think that we should state the facts simply, and let the facts decide, and not hear a lot of bunkum on the matter of wheat marketing."

The Fall Guy

Coach: Don't mind that big guy. The bigger they are, the harder they fall.

Runt: Yeah, but suppose he falls on me?

Editors Know Everything

He wrote to the editor: "How can I keep postage stamps from sticking together?"

The editor replied: "Buy 'em one at a time."

SHE COULD HARDLY SPEAK OR BREATHE
Cold Was So Bad

Mrs. E. H. Greenway, Raymore, Sask., writes:—"I would like to tell you that I think Dr. Wood's Norway Pine Syrup is one of the very best remedies for a cold.

I had such a very bad cold I could hardly speak or breathe, so I went to our druggist's and asked him what he thought best for a cold. He advised me to take

Dr. Wood's Norway Pine Syrup

and I must say I felt grateful to him for, besides being very pleasant to take it relieved my cold quicker than anything else I ever tried. I don't think any one should be without a bottle of it in the house."

"Dr. Wood's" is put up in a yellow wrapper; three pine trees the trade mark; price 35c. a bottle, large family size 60c.; put up only by The T. Milburn Co., Limited, Toronto, Ont.

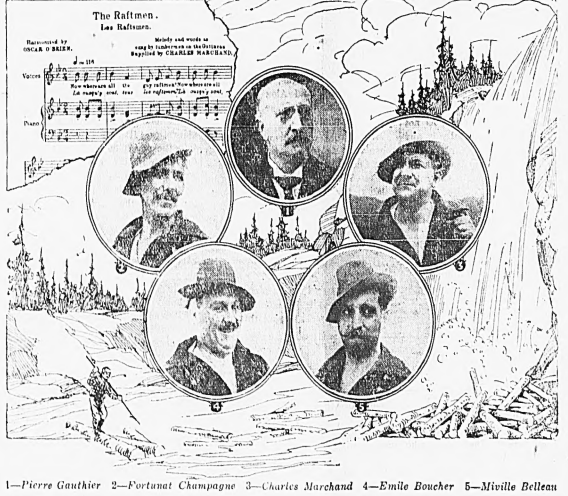
The Bytown Troubadours



1—*Pierre Gauthier* 2—*Fortunat Champagne* 3—*Charles Marchand* 4—*Emile Boucher* 5—*Miville Belleau*

The good old French-Canadian songs, richly harmonized and interpreted with taste, have always met with great success, but one has to hear them rendered by several voices to enjoy their fullness of poetry and music. In order to present such songs in their most artistic setting the Canadian Pacific Railway obtained the services of Charles Marchand and his famous Bytown Troubadours for the Folk-song and Handicraft Festival held at the Chateau Frontenac this spring.

This quartet was founded at Ottawa in 1926 by Mr Marchand and the friends who seconded him in bringing these songs before the general public are: Fortunat Champagne, second tenor; Emile Boucher, tenor, and Miville Belleau, basso.

The leader and founder of the quartet was a former chorister of the Basilique at Ottawa. He is an ardent interpreter of the old French songs and is the very soul of the quartet. His profound knowledge of the rhyme characterizing the old country songs enables him to render them faithfully. This has resulted in an inspiring emulation among his friends mentioned above, who have entered with enthusiasm in interpreting the songs indigent of the Province of Quebec.

The programme rendered at the Festival by the Bytown Troubadours, consisted of songs by Amédée Tremblay, Oscar O'Brien, Paul Larose, Alfred Laliberté and Maurice Morisset. Pierre Gautier has arranged these songs for several voices, doing so with such skill that even greater charm has been drawn from the old harmonizations. Mr. Gautier came to Ottawa in 1920, after a brilliant career in France, as professor of piano and harmony.

The Bytown Troubadours is a unique organization in musical circles on the continent. Every member is imbued with the true spirit of French-Canada, enabling a faithful interpretation of the songs of their forefathers.

Confederation and After; Sixty Years of Progress; Fathers of Confederation

The Fathers of Confederation bear somewhat the same relation to Canadian history as the Signers of the Declaration of Independence do to the history of the United States. Like the latter, they are all venerated collectively, but individually certain names stand out above the rest—the master minds that made the great movement a reality. Just as Washington, Jefferson, Adams, Madison and two or three others were the guiding spirits in drafting the terms of the Declaration of Independence and putting it through the Continental Congress, so Macdonald, Cartier, Tupper, Galt, Brown and McGee were the real leaders in the movement that resulted in the merging of the weak and scattered colonies of British North America in the Dominion of Canada. At the same time, while honouring the memory of these outstanding Canadians it would be unjust to forget the very real services of the other seventeen men who with them made up the Fathers of Confederation, or who in other words represented the legislatures and people of their respective colonies at the Quebec Conference in 1864.

At that Conference, Canada (which then embraced what we know to-day as Ontario and Quebec) was represented by Sir Etienne P. Tache, John A. Macdonald, Georges E. Cartier, William McDougall, George Brown, Alexander T. Galt, Alexander Campbell, Oliver Mowatt, Hector L. Langevin, James Cockburn, Thomas D'Arcy McGee, and J. C. Chapais; Nova Scotia, by Charles Tupper, W. A. Henry, R. B. Dickey, Jonathan McCully, A. C. Archibald; New Brunswick by S. L. Tilley, John M. Johnson, Peter Mitchell, Charles Fisher, Edward Chandler, W. H. Steeves, John H. Gray; Prince Edward Island, by John H. Gray, Edward Palmer, W. H. Pope, George Coles, T. H. Haviland, Edward Whelan, A. A. McDonald; and Newfoundland, by F. B. T. Carter and John Ambrose Shea.

Nearly all of these men had taken part in the Charlottetown Conference that paved the way for the momentous meeting at Quebec; most of them were instrumental in steering the Quebec Resolutions through their respective legislatures; and, with the exception of the Newfoundland delegates, practically the same group met again at Westminster in 1866 to prepare the final draft of the British North America Act—the Constitution of Canada.

Newfoundland, after some hesitation, finally decided to join the new Confederation. In 1895 delegates were sent to Ottawa by the Ancient Colony to discuss terms of union, but unfortunately the negotiations fell through, and have never since been resumed. Prince Edward Island took several years to deliberate, but finally came into the Dominion in 1873. In the meantime the Red River Colony had joined the Union as the Province of Manitoba; and the following year British Columbia also became a member. Saskatchewan and Alberta became provinces in 1905.

As each of the thirty-three Fathers of Confederation had been political leaders before the creation of the Dominion, so after Confederation each of them took an active part in the public life of the country, some as members of the federal cabinet, the Senate, or the House of Commons; others as members of the various provincial governments or legislatures; others again as lieutenant-governors of provinces, or members of the judiciary. By a curious coincidence two unrelated John Hamilton Grays sat in the Quebec Conference. One had been premier of Prince Edward Island, and the other became a judge of the Supreme Court of British Columbia.

MAGNESIA BEST FOR YOUR INDIGESTION

Warns Against Doping Stomach With Artificial Digestents

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestents, and instead, following the advice so often given in these columns, take a teaspoonful of two tablets of Bisurated Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy better health. Those who use Bisurated Magnesia never dread the approach of mealtime because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. Try this plan yourself, but be certain to get pure Bisurated Magnesia especially prepared for stomach use. 135

EULOGIZING THE COW

"Darn that old cow," is an expression quite often used by the housewife when she spies from a window one of those lowly, humble animals craning her neck to reach a weed that has stood against the winter blasts, or to pick up a frozen vegetable discarded at digging time. Poor miserable creatures, these cows, turned out by owners in freezing weather to forage in backyards, or to gnaw at sparse, dry, weedy growths along the roadways. They are thin and half frozen, resembling to a marked degree Russell's first picture, "The Last of Five Thousand."

As darkness comes, the cow wanders disconsolately back to the corral where her owner boots her through the gate, doles her a pitiful supply of wheat straw, and expects a full pail of rich milk. This milking business is not a popular pastime. The chore man cusses the cow and threatens to sell her to the butcher. He wants a cow that will milk herself, carry the pail to the house, turn the separator and churn the butter. Or, failing this, a cow attachable to an automobile, which will attend to the milking duties while the boss is hitting it up at 40 miles per hour on the way to nowhere.

The ungainly cow is a matter for little respect and much contempt. Man despises his best friend. It is a relief to find an occasional thinking person who regards the cow in her true light, an animal, almost human in her feelings, and entitled to good care and food. Witness the following eulogy written by "Old Pioneer."

Of all the animal friends of man, she is the greatest. To her we owe the most. I wish that I, as you are about to sit down to the noon-day meal might remove from your table what the cow has placed thereon. I'd take the cup of milk waiting at the baby's chair. I'd take the cream, the cheese, the butter, the custard pie, the cream biscuits, the steak, the smoking roast of beef, and leave you to make a meal of potatoes, beets, pickles and toothpicks.

There is not a thing from nose to tail but that is utilized for the use of man. We use her horns to comb our hair, her skin upon our feet, her hair keeps the plaster on our walls, her hoofs make glue, her tail makes soup, she gives us our milk and cream, our cheese and butter, and her flesh is the greatest food of the nation. Her blood is used to make our sugar white, the bones are ground to fertilize our soil, and even her paunch she has first put through the first chemical process necessary for the production of the best white cardboard, they have discovered that such can be made into the finest quality of false teeth.

No other animal works for man day and night. By day she gathers food, and when we are asleep at night, she brings it back to rechew and convert into all the things that I have spoke of.

She has gone with man from Plymouth Rock to the setting sun. It was her sons that turned the first sod in the settlers' clegring; later it was her sons that drew the prairie schooner for the sturdy pioneers as, inch by inch, they fought their way to prove that "westward the star of empire takes its way" with the old cow grazing behind, and when the day's march was done, she came and gave milk to fill the mother's breast to feed the suckling babe that was, perchance, to become the ruler of this country. Who says that much of what we are we do not owe to man's best friend, the cow? Treat her kindly, gently, for without her words fail to describe the situation.

Anyone who reads these noble words will feel, when he meets a cow hereafter, like taking off his hat to her. There is an old song, "A Boy's Best Friend is His Mother," Perhaps next to the mother, and other close human friends, she who is the best friend of the boy is the cow.—Raymond Record.

THE SUBDUED

I often gaze at William Whiz who once was bold his thoughts to speak, and think how sad a thing it is that now he is afraid to squeak. He was a plumber long ago, and put in pipes for gas and steam, and as he teetered to and fro he spoke his mind on every theme. We knew just where this William stood on every question 'neath the sun; he'd say a thing was bad or good, and not retract for anyone. And though we voiced some discontent when he would strings of words unwind, we all admired this honest gent who did not fear to speak his mind. And this was why he got our votes, that time he ran for county clerk; we whooped for him and shed our coats and got in most successful work. He's held the office now for years, and hopes to hold it till he dies; which may explain why he appears most rabbit-like of timid guys. I say to him, "This rain that falls persistently throughout the day will heal the farmer's sores and galls, since it insures a crop of hay." He seems as though about to speak some words confirming what I've said, but he is frightened now and meek, who once upreared a Marslike head. He thinks of merchants who can't sell the gaudy hats designed for spring, because the rain comes down pell-mell—he has to think of everything. And he recalls a picnic planned by teachers of the public schools, and so he dares not take a stand indorsing rain and ponds and pools. So he is troubled and distraught, and nothing trenchant can he say; "The matter calls for earnest thought," he says, and shuffles on his way. This shows what politics will do; it turns the lion to a hare, it lames the leaping kangaroo, and makes a poodle of the bear.—Walt Mason.

Auction Bridge

One of the puzzling questions of auction is the proper lead to make, after the bidding is concluded and the final declaration is determined. The only way to get the best results is to study a good table of leads and follow the conventional rules. Usually it is easy to determine your proper lead when your partner has bid a suit, but even then, if you have four or more of this suit, you have to use good judgment as to the lead and should know the why and the wherefore. That this point is not clearly understood is shown by the following inquiry from one of our readers in Baltimore: "Several evenings ago during a bridge game the following situation arose: I had bid two clubs and the opponent on my left had bid two diamonds and won the bid. My partner had four clubs to the queen and his original lead was his low club. After the hand had been played I claimed that his original lead should have been the queen of clubs as this was my suit, and would enable me to place the honors in the other hands. He claimed that he was correct in leading his low club and referred me to your article on Opening Leads. As I understand your discussion of opening leads, the lead of his was absolutely correct, but as no logical reason occurs to me for such a lead I would appreciate very much if you would give me your reason for preferring this lead rather than the best card of the suit." The reason the fourth best lead is preferred to an honor lead, with four to an honor of your partner's declared suit, is because it is usually more important to count the number of the suit held by partner than to know his highest honor and have to guess as to the number. With the lead of the fourth best you know at once by the rule of eleven where the high cards are located and if there is an honor in dummy, whether or not you should finesse. In that way you can usually "kill" an honor in dummy even with a fourth best lead and so obtain the same result as if the honor had been led. On the other hand, the lead of an honor enables you to "kill" the honor in dummy but gives you no guide as to the number of cards in your suit held by your partner or opponent, which in most hands is extremely important. For these reasons, the experts have preferred the low lead to the honor. Of course there are some cases where an honor lead will gain a trick; but in the long run the fourth best is the winner, and winning auction is really a matter of beating averages.

As a little test of your knowledge, think over the proper lead in the two following hands and compare results with the analysis that will be given in the next article.

Problem No. 29

Hearts — A, K, 9
Clubs — J, 9, 7, 4
Diamonds — K, J, 10, 8
Spades — 8, 2

Y
A B
Z

No score, first game. Z dealt and bid one heart. If all passed, what is A's proper opening lead?

Problem No. 30

Hearts — 10, 7
Clubs — Q, J, 7, 4
Diamonds — 10, 8, 7, 3, 2
Spades — K, 3

Y
A B
Z

No score, rubber game. Z dealt and bid one no-trump. A and Y passed and B bid two clubs. Z and A passed, Y bid two no-trump and all passed. What is A's proper opening lead?

Problem No. 31

Hearts — 10, 8, 4
Clubs — K, Q, 10, 8, 3
Diamonds — A, 7
Spades — A, J, 7

Hearts — 7, 2
Clubs — 6, 5
Diamonds — 9, 6, 5, 4
Spades — K, 9, 6, 5, 3

Y
A B
Z

No score, rubber game. Z dealt and bid one heart. All passed and A opened the eight of spades. Z played the seven from Y's hand, B played the king and Z the four. What should B now play and why? An analysis of this interesting hand will be given in the next article.

Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, May 26, 1927)

Choice Birds for Poultry Congress

Alberta's contribution to the live bird exhibit at the World's Poultry Congress to be held in Ottawa in July will include a large number of high-production registered birds. Entries already have been promised from the flocks of D. P. White, Macleod; the Winter Egg and Poultry Farm, Lethbridge; Mrs. J. W. Cookson, Tofield; Frank Edwards, Edmonton; J. D. McAra, Calgary; Cloverlea Seed and Stock Farm, Edmonton; H. T. Luther, Lethbridge; T. Hutchinson, Cheddarville; W. J. O'Neail, Innisfail; Jasper Place Poultry Farm, Edmonton, and E. R. Nicholls, Big Valley.

Another Producer in Sunburst Field

A brisk demand for oil lease acreage in the extreme south of the province has followed the announcement that a flow of high quality crude oil has been struck at a depth of 2,335 feet in the Hart-Green well located two miles south of the International boundary in the Kevin Suburst field.

Members Plan Northern Tour

Preparations are being made for a tour of the Peace River country during the latter part of June by members of the legislature from all parts of the province. The trip will be made by special train over the E.D. & B.C. and Central Canada Railways and it is expected that a large proportion of the members will take advantage of this opportunity to visit the northland.

More Attractions for Tourists

The 1927 program of development in connection with Canada's National Parks includes the opening of the new motor highway from Lake Louise to Golden, the building of an exceptionally attractive hotel in Waterton Lakes Park and the inauguration of a through motor bus service between Glacier Park in Montana and Waterton Lakes, Calgary, Banff, Lake Louise and Field. These improvements will undoubtedly attract many more tourists to the scenic spots of the province the coming season.

Regulations for Fur Farms

Alberta was represented by Hon. George Hoadley, Minister of Agriculture and Benjamin Lawton, Game Commissioner at a meeting of officials from all the western provinces and Ontario, held at Winnipeg on May 20 and 21. As a result of this meeting uniform regulations will be drafted governing the operation of fur farms throughout the West. Some 200 applications have already been received from fur farmers who intend to breed muskrats and beaver on land adjacent to lakes in various parts of Alberta.

Northern Grain Shipments Heavy

A total of 5,431,475 bushels of grain have been shipped out over the Edmonton, Dunvegan and British Columbia line during the past season up to May 7. This compares with 3,349,475 bushels moved during the corresponding period last year and 2,463,252 bushels in 1924-25. Points along the Alberta & Great Waterways line this season have shipped 440,429 bushels, while 727,651 bushels have been moved from the districts served by the Lacombe and Northwestern.

C.N.R. Building Big Depot

Construction work is being started immediately on the half-million dollar depot to be erected in Edmonton by the Canadian National Railway, the contract having been awarded to the Permanent Construction Co., Edmonton.

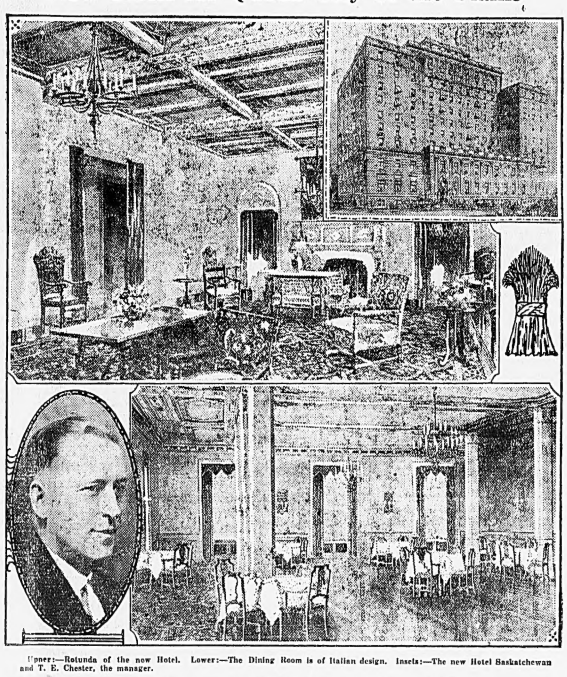
Free Transportation Cancelled

Free movement of farmers and their effects from the drier areas in southeastern Alberta to new locations elsewhere in the province will stop at the end of May when the agreement between the government and the railways will expire. During the past season to the end of April a total of 568 families with 955 cars of stock and effects have been moved under this arrangement. The majority of settlers thus changing their locations have gone to the farming country along the foothills from the Lethbridge district to as far north as Grande Prairie.

Wage War Again on Noxious Weeds

A vigorous campaign against noxious weeds is again being undertaken this season by the Department of Agriculture. Following a number of conferences at different points in the province attended by officials of the department, municipal councils and farmers, the sixteen field supervisors will take up their duties and co-operate with farmers and municipal officials in the eradication and control of the weeds which every year reduce the amount and quality of grain yields.

New Hotel for Queen City of the Plains



Upper:—Rotunda of the new Hotel. Lower:—The Dining Room is of Italian design. Insets:—The new Hotel Saskatchewan and T. E. Chester, the manager.

One of the most beautiful buildings in Western Canada is the "Hotel Saskatchewan," Regina's new hotel, which was officially opened by E. W. Beatty, President of the Canadian Pacific, on May 24. In it the architects have sought to provide the maximum of convenience and comfort for its guests and to obtain the most pleasing architectural effect.

Regina's need for a new hostelry has been felt keenly for some time, as the city's importance as capital of the province which furnishes 50 per cent. of the Dominion's wheat output, has been steadily increasing. The erection of a hotel in Regina was interrupted by the war, and the removal of the old steel structure less than a year ago, marked the first step towards the realization of Regina's dream of a new modern hotel, which at last has been brought about through the enterprise of the Canadian Pacific Railway.

Pleasing artistic effects have been achieved throughout the interior of the building. The public rooms, which are numerous and spacious, each have a character of their own. The Tea Room and Rotunda, for instance, have a Spanish atmosphere. The walls of the former are of antique mottled and decorated plaster with a base of stone and a carved stone mantel, while the ceiling is a wood rib and beam ceiling, painted and decorated.

One of the most comfortable and homelike rooms in the hotel is the library, situated on the first floor. The walls are of panelled wood with enclosed bookcases.

The exterior is no less beautiful than the interior. It is designed in Georgian style, the first two storeys being faced with Tyndale or Fossil stone quarried near Winnipeg. The main entrance is particularly striking with its tall Corinthian pilasters and arched windows.

There are 216 guest bed-rooms with baths, and space for 36 more on the two top floors of the building which, as yet, have not been finished.

On account of the nature of the soil, the hotel was erected on a reinforced concrete mat with structural steel plate girders embedded in the concrete. It is eleven storeys high and absolutely fire-proof.

DID YOU EVER STOP TO THINK

(By Edson R. Waite, Secretary, Shawnee, Okla., Board of Commerce)

That no citizen is a real citizen until he takes a real interest in the home city.

That leaders are the people who are up and doing all the time. Only heartaches await the laggards.

That when trouble meets progressive citizens they smooth it out, hop over it and keep going.

That the man who puts the most into his home city is the one who gets the most out of it.

That the citizens who always lose are the ones who are always going to do something tomorrow. They are like the business concerns who ignore the benefits of advertising; they are just buying oil to grease their way to ruin.

Some people are citizens of a city—others just live there.

Men who make it their business to please their customers have a growing business.

You should not only be a regular fellow, but a regular citizen as well.

Yes, I am shooting my remarks at you!

Supports Home Inrustry

It has come out, in comparing expense costs of English and Scottish prisons, that the cost of keeping a prisoner in England is just double what it is in Scotland. The result is that English prisoners from now on may eat a little more oatmeal.

Sleeplessness Smothering Spells Shortness of Breath

When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, you can't sleep, and have a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, you will find that

MILBURN'S HEART AND NERVE PILLS

will regulate and stimulate the heart and strengthen and restore the whole nervous system.

Miss Bertha A. Baker, West Jeddore, N.S., writes:—"Three years ago I was troubled with smothering spells, shortness of breath and sleeplessness.

A friend of mine who had used Milburn's Heart and Nerve Pills advised me to try them, which I did, and after using the first box I felt better, and since then I have taken three boxes.

I can highly recommend them to all who suffer as I did."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WHEAT AND EGG POOL

A meeting of Wheat Pool members will be held in the U.F.A. Hall on Saturday, June 11th, at 3 p.m., to nominate a delegate to attend the Wheat Pool Annual Convention.

The Egg and Poultry Marketing Service are handling both Pool and non-Pool eggs. The usual advance is made on Pool eggs, and the highest cash price is paid for non-Pool eggs.

Trade with the merchants who advertise in this paper.

ALBERTA EXHIBIT AT POULTRY SHOW

EDMONTON, May 26.—An exhibit of Alberta grains and grasses, poultry products and moving pictures will be made by the department of agriculture at the World's Poultry Congress in Ottawa in July. It is now being prepared and will be of character and proportions sufficiently attractive to give Alberta some more good publicity.

MADE IN ALBERTA EXHIBIT HERE

The Wetaskiwin Women's Institute and Peace Hill Chapter I.O.D.E. have made arrangements for an exhibit of Made-in-Alberta products to be shown here on June 29-30 and July 1-2. One of the main features wil be a Made-in-Wetaskiwin booth, with Mrs. George D. Wallace in charge. Watch for further particulars.

BORN

BAXTER—In Wetaskiwin, on the 20th May, to Mr. and Mrs. James Baxter, a daughter.

WOLFE—In the Wetaskiwin Hospital, on the 27th May, to Mr. and Mrs. Ordie Wolfe, of Millet, a son.

WARNING

The Chief of Police has issued a warning that the riding of bicycles on the sidewalk must be stopped, as it is a violation of the city bylaws. If this practice is not stopped, prosecutions will take place.

6,000,000 BUSHELS VIA PRINCE ALBERT

Commencing June 20th, the Alberta Wheat Pool will undertake an intensive drive for the signing up of the Second Series of contracts.

Joseph Bennett, superintendent of the Prince Rupert Wheat Pool terminal elevator, was in Calgary and stated that twenty shiploads of grain or six million bushels would be the season's handling for that terminal. The last boat, the Yonei Maru, will load three hundred thousand bushels of wheat in June for Shanghai.

The first British Columbia Wheat Pool local to be formed was organized at Bridesville, B.C., by W. J. Jackman, director of the Alberta Pool. British Columbia wheat farmers are greatly interested in the Pool.

The terminal elevator site purchased by the Alberta Wheat Pool in Vancouver Harbor is one of the best locations for an elevator to be found there.

The board of directors of the Alberta Wheat Pool have decided to commence an active campaign for the signing of the Second Series of Wheat Pool contracts. The drive is to start on June 20th. In preparation for this campaign a conference of the seventy Wheat Pool delegates has been called for Monday, June 6th, in Calgary, at which the campaign will be planned. Every wheat producer in Alberta will be canvassed to sign a contract. The Wheat Pool locals, some 260 in number, will be called upon to undertake the work of covering the province. Each of the seven directors will be responsible for the organization of their districts and subsequently meetings will be held throughout the rural portions of the province.

ALBERTA FISH AND GAME ASSOCIATION

A meeting of those interested in the protection of game in the province, and especially in the Wetaskiwin district, will be held in the banquet room of the Driard Hotel on Friday evening of this week at 8:30. It is hoped that a branch of the Alberta Fish and Game Association will be formed at this meeting.

HELD ON SUSPICION

Lacombe, May 27. — Two young men, J. E. Holmes, hailing from Saskatchewan, and Lyle Campbell, of Morningside, Alta., are being held at Red Deer, on a charge of rustling cattle. The men were taken at Crossfield by Constable Collett, of Lacombe, where they were held following a deal with the Alberta Cattle Pool at Tees. Constable Collett, after investigation, placed the men under arrest. According to the police, one of the young men has made a confession.

PUTS BULLET IN HIS PIPE; STILL LIVES

Lloydminster, Alberta, May 28.—Filling his pipe with loose tobacco that was in his pocket, a resident of the Lloydminster community accidentally inserted a .22 cartridge in the bowl of his pipe, and after sitting down to enjoy a quiet smoke, was alarmed to hear what sounded like the report of a rifle. Despite the fact that the bowl of his pipe was blown to smithereens the smoker was none the worse for his experience.

SUITABLE HOG PASTURES FOR SPRING AND FALL
(Experimental Farms Note)

For the past four years a considerable amount of work has been carried on at the Indian Head Experimental Farm in testing suitable pastures for hogs. Pastures provide an abundance of cheap feed and considerably reduce the cost of pork production. The choice of pastures however, depends largely on the soil and climatic conditions.

A variety of pastures is essential in order to provide an abundance of succulent feed throughout the season. For this purpose fall rye sown in late August or early September will supply succulence for the early spring litters. Oats or oats and barley sown in combination, as early as conditions will permit, will provide mid-summer pasture. Rape has proved to be one of the best pastures under test, from the standpoint of economical gains. Rape may be used to follow the pastures previously mentioned and thus provide pasture for the late summer and fall months. Rape sown in June will be ready in August and September and may be used to finish the early spring pigs or give the fall litters a fair start before the cold weather sets in.

A mixture of oats and fall rye sown in early June is to be recommended. This mixture provides succulent pasture throughout the entire season. When the oat pasture becomes exhausted, the fall rye will gradually take its place and remain green and succulent all fall. Fall rye sown alone in June also provides succulent pasture for fall litters.

Pastures are essential for the health and vigor of young, growing pigs and brood sows. Plan to supply your pigs with succulent pasture during the entire growing season.

Maybe She Is

"Have you seen May?"
"May who?"
"Why, Mayonnaise."
"No, she's dressing, and won't lettuce."

Advertise in the paper that circulates all over the district thoroughly.

Every Property Owner Is Urged to Execute a Will

Convenor of Legislature Committee of Women's Institute Takes Unusual Angle in Presenting Report at Annual Meeting of Prominent Body in Edmonton—Suggests Topic Be Studied During Coming Year

Edmonton, May 27.—An unusual angle was taken by Mrs. A. C. Bury, of Olds, convenor of the legislation committee, in presenting a synopsis of her report to the Alberta Women's Institute convention on Thursday afternoon. Mrs. Bury stressed the importance of every property owner making a will and urged the delegates to see that this was done in their own households. She also told them that they should be familiar with the family business affairs, and advised them to acquaint themselves thoroughly, if they were not already conversant.

As a study for the coming year, she suggested the subject of insurance. But they were not to stop at mere study. They should find out the nature of policies which they might take out, decide which fitted their particular needs, and try to increase the insurance in the home by at least one policy. Right here Mrs. Bury forestalled the query, "where is the premium to come from?" by suggesting that a saving on the operation of the automobile might provide for this.

That the last year has seen tremendous progress in the setting out of trees and shrubs in the province, was brought out in a comprehensive report on agriculture presented by the convenor, Mrs. M. A. Murphy, of Cowley. Farmers, Mrs. Murphy said, have awakened up to the fact that trees serve many purposes. They not only beautify and increase the value of the land, but serve as windshields, conserve moisture and prevent soil drifting.

A thrill ran through the convention when Mrs. Murphy announced that in a Hutterite colony near Lethbridge Concord grapes are being grown success fully. At Peace River and Beaver Lodge, in the north, choice small fruits and rare flowers grow in abundance. In the southern part of the province cherry and plum trees, apples and crabs are doing well. Every town and country garden in Alberta should produce its own small fruits she contended.

Mrs. Murphy is evidently an enthusiastic gardener herself, for she urged the importance of growing more flowers and shrubs in a manner which bespoke familiarity from a practical standpoint.

The planting of perennials was especially recommended, and many shrubs and ornamental trees which do well in Alberta.

An insight into the scope of Alberta's national industries was given through the medium of the report of Mrs. William Stewart of Peace River, convenor. She pointed out that the province not only possessed agricultural and mineral wealth, but it made a fair showing in the industrial field with 194 manufacturing plants.

Directors for 1927-28 are—District No. 1, Mrs. Jas. Boyd, Vanrena; District No. 2, Mrs. A. H. Rogers, Fort Saskatchewan; District No. 3, Mrs. H. J. Montgomery, Wetaskiwin; District No. 4, Mrs. F. C. Alcock, Champion. Mrs. A. H. Rogers was elected representative on the Federal Women's Institute board.

The retiring directors, Mrs. C. A. Gates, of Stony Plain, and Mrs. Lynch Staunton, of Lundbreck, were honored with their fellow workers, a sheaf of gladioli being presented to Mrs. Gates, and a dainty purse to Mrs. Lynch Staunton.

Mrs. H. J. Montgomery and Mrs. Lynch Staunton presented their reports, covering the work accomplished by the branches in their districts during the year. Mrs. J. Walker played piano solos.

D. Boucier, assistant gardener, provincial government, gave an address on the care and cultivation of house plants.

An organ recital by Vernon Barford last evening, followed by a visit to the "Made in Alberta" exhibit, concluded the day.

5 Boils on Neck, 3 on Arm At Same Time

Mr. E. G. Collins, London, Ont., writes:—"I am writing a few lines in praise of Burdock Blood Bitters which relieved me of boils that I was very badly troubled with.

I had five on my neck and three on my arm at the same time, and could not get any sleep I was in such misery. I saw your

BURDOCK BLOOD BITTERS

advertised and thought I would try it, and I am pleased to say that after taking one bottle I got clear of all of them. It also made me feel better and stronger."

B.B.B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.

BUTTER JUDGING AT W.I. CONVENTION

Edmonton, May 26.—For the first time in history, a butter judging competition has been staged in Alberta. This event which took place late on Wednesday afternoon at the University of Alberta, in connection with the Alberta Women's Institute convention, had sixty competitors, and in handing in the awards, Dr. C. P. Marker, dairy commissioner, stated that in all his experience of handling contests, he had never had one in which such excellent judging was displayed.

When the judging was summarized it was found that five women had differences of only two points between their scores and the official scores. They were: Mrs. A. G. Clarke, Coaldale; Mrs. Jack Eller, Milk River; Mrs. M. T. Green, Onoway; Mrs. Jas. Kimball, Edgerton; and Mrs. Parkinson, Edgerton.

The second group, three points out, were: Mrs. Lyle Brown, Hillsdown Valley; Mrs. G. Cranbon, Wembley; Mrs. Henry Ferrant, Didsbury; Mrs. W. Huyck, Stromo; Mrs. F. W. Leeson, Didsbury; Mrs. Leslie Phillips, and Mrs. Rix, of Angus Ridge.

The third group, four points out, were: Mrs. W. A. Brown, Ritscoty; Mrs. R. B. Hiltz, Ritscoty; Mrs. D. S. A. Kyle, Lougheed; Mrs. J. A. Neely, Kilham; Mrs. P. Norman, Redlodge; Mrs. W. C. Short, Edmonton, and Mrs. A. Tyler, Alliance.

WINES OF THE BIBLE

We sometimes hear the Bible quoted in support of the use of intoxicating wine. It is even sometimes spoken of as a "good creature of God," forgetting that alcohol is not created by God. It is not found in nature, but is prepared by man through the process of fermentation or decomposition.

Scholars explain the misunderstanding by pointing out that in Bible times and countries both fermented and unfermented wines were in common use, and generally the unfermented kinds were more highly esteemed than the other. Grape juice or syrup, was called nectar or ambrosia—food of the gods—and was non-intoxicating. Then several words were used to designate these different liquids, all of which have been translated as wine or strong drink, though they don't all refer to intoxicating liquids.

"Here you shall quaff under a shade, cups of unintoxicating wine."—Horace A.D. 65, B.C.

"Sweet kinds of wine do not make the head heavy."—Hypocrates.

"Filtered wine neither inflames the brain, nor infests the mind and the passions, and is much more pleasant to drink."—Plutarch A.D. 60, B.C.

Aristotle says of sweet wine that it would not intoxicate and that the wine of Arcadia was so thick that it was necessary to scrape it from the skin bottles and dissolve the scrapings in water.

The fresh juice was often pressed the grapes and drank.

"I took the grapes and pressed them into Pharaoh's cup."—Gen. XL: 11.

"Thou didst drink the pure blood of the grapes."—Deut. 32: 14.

The Mohammedans of Arabia press the juice of the grape and drink it as Pharoah did.

The ancients had four methods for the preservation of fresh grape juice. Boiling, filtering, subsidence, and fumigation.

Scholars also tell us of three words which have indiscriminately been translated wine. "Yargan" denotes fruit of the vine in any state, its exact meaning may be determined by the context. "Tirosh" always means sweet or unfermented wine. "Shakar" means fruit juices other than grapes. The word tirosh is used thirty-eight times, "Wine which cheereth God and man." Where wine is advocated in the Bible the word "tirosh" is generally used; when the word "Yargin" the meaning may be determined by the context.

As to the wedding feast, we are taught the word there used is "Yargin," meaning grape juice in any state, even in cluster. There is no reason to think that alcoholic wine is meant.

An eminent Jewish Rabbi, Dr. S. M. Isaac, tells us the Jews do not, in their feasts for sacred purposes, including the marriage feast, ever use any kind of fermented drink. In the Holy Land the best wines are preserved sweet and unfermented. Fermentation is to them always a symbol of corruption.

The governor of the feast said the best wine was kept for the last, and there is abundant proof that the best was always the sweet and unfermented.

At the Last Supper, the word wine is not used, but the expression "This fruit of the vine."

Anyone may easily satisfy himself that there is nothing contradictory in the teachings of Christ, that He never created or advocated that which is such a hindrance to His teachings, described in the Bible as "the poison of dragons and the cruel venom of asps," upon which we are told not even to look.

A bachelor who is continually "putting his foot in it," visited the proud parents of a new baby boy. The mother held up the bundle for inspection and asked gaily: "Tell us frankly, which of us do you think he is like?" After a careful examination of the baby, the bachelor replied: "Well, of course, he's not very intelligent looking, but he's wonderfully like both of you."

Local Prices Beat Eaton's

By actual comparison of prices and quality, a lady in Cardston this week, after using Eaton's sample book of wallpaper and burlap to make out her order, bought from Thos. Barker, local paperhanger and paper dealer, her supply of paper and burlap for her spring housecleaning, and thereby saved nearly $1 in addition to the cost of express or freight on the lot. This was such a surprise to her that she told the News about it. But such experiences are common to those who know.

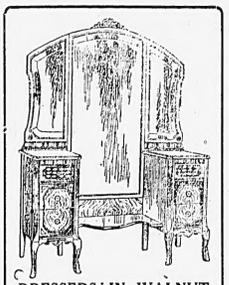
Most business houses in town are ready and willing to meet mail order prices on the same terms as the Mail-Order houses do business—money in advance and then wait a week or 10 days for your goods. But Mr. Barker did one better—he sold the goods for less money and laid them down here at that price. Many people would be willing to pay a percentage more than mail order prices for the service the local man gives. At any rate give them a chance.—Cardston News.

So Truly Fine "SALADA" GREEN TEA T92

Drink it and you will say "Superb".

HOME

Your Home is the Greatest Single Factor Influencing Your Life



DRESSERS IN WALNUT FINISH

Convenient drawer space; and large mirrors

$22.50 to $32.50

Ball Bearings Make the Gold Medal Turn Still Easier

You've always known the Gold Medal as an easy-turning cream separator.

Now, with a new ball-bearing upper-neck bearing, it's still easier to turn—it's the lightest-running cream separator on the market. Bearing is enclosed and protected from dirt and moisture, insuring long life and minimum friction.

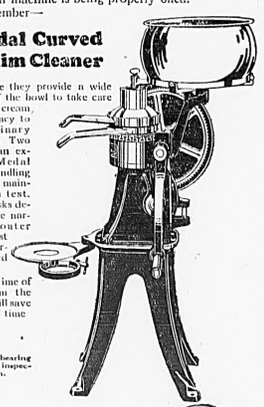
Another new feature you'll like about the Gold Medal is a new-type oil indicator. You can see at a glance if your machine is being properly oiled.

And, remember—

Gold Medal Curved Disks Skim Cleaner

That's because they provide a wide space at center of the bowl to take care of thick, sluggish cream that has a tendency to clog in the ordinary straight disk bowl. Two cream outlets—an exclusive Gold Medal feature—aid in handling thick cream and maintaining uniform test. Space between disks decreases to extreme narrowness toward outer edge, where the last particles of butter-fat are removed from the milk.

You'll get a lifetime of good service from the Gold Medal—it will save you money every time you use it.



We have a new ball-bearing Gold Medal for your inspection. Come in.

REAL PATRIOTISM FOR GIRLS

Dominion Day, as you know, comes on July 1st and commemorates the union of the Provinces of Canada.

Would it not be a good time, as well, to remember in some way the brave men who gave their lives in the Great War, and bring a little cheer to those who are still maimed and crippled in our hospitals? Our senses are stirred by the national anthems which the bands are playing—by the flags floating everywhere—and by the flowers which in some localities are laid so reverently on soldiers' graves. But as to our own connection with it all, most of us haven't one real idea.

And yet every girl of us, no matter how young, has a real duty to her country. Because we are a nation for which men have fought and died, and because we, as girls, are enjoying privileges bought at the very highest price, we owe that nation an interest in her problems and as much of an understanding of them as we are able to muster. We must read, we must think.

Wars are terrible things, catastrophies so great that it is only natural for us to hope for and dream of a time when civilization will have no more of them. You and I are living in a period when a true Universal Peace is more than a dream. By our thinking, our reading, our understanding, let us do our bit to help it along. That, for this generation, is real patriotism. — (Adapted from Pleasant Hours).

RED CROSS SOCIETY AND HOME NURSING

In Alberta where Miss Theodora Taylor is in charge of Home Nursing with Miss Jasenchuk as assistant in the Ukranian districts, attendance at the classes is said to be almost 100 per cent good, and these two instructors visited 99 localities in 1926, where despite many difficulties of travel and unusually severe storms they formed 31 classes with an attendance of 352 women at their completion.

In Saskatchewan where classes in Home Nursing have been conducted for only five months in the past year, 23 classes with an enrollment of 273 were completed; while in British Columbia where Home Nursing instruction has been increasing in popularity under the tutelage of Miss C. Davidson, the provincial organizer, 44 localities were visited and the figures for 1926 added, 886 women have taken the course in the past two and a-half years. A unique feature of the work in British Columbia is the delivery by Miss Davidson of a series of weekly radio talks on Home Nursing, which have been broadcasted all over the province.

Had Awful Pains In Her Back

When the kidneys get out of order the back is sure to become affected and dull pains, sharp pains, quick twinges all point to the fact that the kidneys need attention.

Mrs. Allan Batting, Enterprise, Ont., writes:—"After my second baby was born I had awful pains in my back, and could not sleep at night.

I could hardly do my housework, especially my washing when I had to bend over the tub.

I had read so much about Doan's Kidney Pills, in your almanac, I thought I would give them a trial, so I got three boxes and when I had finished the third one I was completely relieved of my trouble."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

* * *

Miss Ruby M. Ayres received a doll carriage on Thursday last as second prize from the Rainbow Club of the Journal.

* * *

The Millet Hog Ranch shipped a carload of hogs—consisting of thick smooths and selects—to P. Burns and Co., Edmonton.

* * *

Rev. Mr. Hall, of Larchtree, occupied the pulpit in Millet United Church on Sunday evening, in the absence of Rev. A. B. Argue.

* * *

Rural mail carrier Denney has had to go back to wheels and horses owing to very heavy rains putting the roads in bad condition.

* * *

Rev. A. B. and Mrs. Argue have been in Calgary during the past week, in attendance at the Conference of the United Church in session there.

* * *

Mr. K. Kerr, who has resigned as manager of the P. Burns Creamery here, has taken a half interest with Mr. E. M. Furlong, in the Millet Hog Ranch.

* * *

Mr. H. D. Frizell, Mr. and Mrs. H. R. Facey, and Miss Kate Graham, of Provost, Alberta, spent Sunday evening at the home of Mr. and Mrs. F. Facey, on their way to Edmonton.

* * *

The Misses F. and E. Truscott, Miss Alexander and Mr. Barrons, were visitors at the home of Mr. and Mrs. Graham on the evening of May 24th, en route from Sylvan Lake to Edmonton.

* * *

The Fraser Block, including Thorp's Bakery and the barber shop and pool hall, is receiving a coat of paint, and will soon present a creditable appearance. Who is next in the "Paint-up" campaign?

* * *

Mr. and Mrs. F. Easterbrook, of Mercole, Alberta, returned home last week after spending a few days visiting Mr. and Mrs. Jas. Easterbrook. Miss Hazel accompanied them for a short holiday.

* * *

Mr. Ray Sheppard, who has been in charge of the P. Burns Creamery at Daysland, arrived in Millet on Monday, and is succeeding Mr. K. Kerr, who has been local manager here for the past two and a-half years.

* * *

On Thursday afternoon of last week, District Deputy Grand Master Fred Thompson, I.O.O.F., Millet, accompanied by Mr. A. P. Mitchell, went to Leduc in the interests of the Lodge at that place, and in the evening Messrs. J. West, O. J. Olesen, H. Grapentine, H. Scott, J. R. K. Graham, and E. Morse, were visitors at the Lodge meeting.

C. G. I. T.

The "Happy Lot" C.G.I.T. group, of Millet, accepting the kind invitation of the Leduc C.G.I.T. girls, motored to Leduc on Friday afternoon, May 27.

After the arrival of the Millet class, the two groups proceeded directly on the hike that had been planned for the day. At the completion of the walk, a fire was prepared and delicious camp foods were served. After the lunch, the girls played several games. A discussion took place on the plans for holding a C.G.I.T. camp at Pigeon Lake. The girls were asked to find out definitely whether they would be able to attend, and then to communicate with their leaders.

As the weather looked threatening, the departure for home was made at an early hour. Each girl agrees that she had a lovely time and all are anxious to repay the kindness extended to them by the Leduc Group.

WILL CELEBRATE JULY 1

A meeting of the citizens was held in the Mayor's office on Monday evening to discuss plans for holding a Jubilee Celebration in Millet on July 1st. It was unanimously agreed that the day should be fittingly recognized and several committees were named to arrange for the various means of entertaining all visitors to Millet on that day.

The Rural Schools will be asked to co-operate with Millet School and town in carrying out the program suggested by the Department, and if entered into with enthusiasm and patriotism, this Jubilee Day can be made a memorable event in the life of every child and adult.

Let us all enter heartily into the spirit of the day and help to make it a big success.

NOTES FROM NEAR AND FAR

It is a striking fact that twenty years ago there were no Women's Institutes outside of Ontario. Now this great Canadian movement has spread to the British Isles and from there to many parts of Europe. At the last international convention of Women's Institutes held in Belgium, representatives were in attendance from Italy, France, Belgium, Czecho-Slovakia, Poland, Lithuania, Finland, Switzerland, Hungary, besides Scotland and England. Just ten years ago the first group was organized in the British Isles, and to-day in England and Wales alone there are 3,373 flourishing institutes. Besides their educational work, which brings so much valuable knowledge and needed companionship into the lives of rural women, there are the various community activities in libraries, halls, playgrounds, parks, social service and other forms of work which are constructive and helpful.—Onward.

* * *

The first United States plant for the manufacture of sugar from beets was established in 1880; now there are eighty factories, with an investment of one hundred million dollars, and a yearly output of about seven hundred thousand tons of sugar, or 1,400,000,000 pounds.

* * *

Paris is providing lunches for its working girls at a cost of eleven cents. For this small outlay they secure meat, one or two vegetables, dessert, bread, lemonade or mineral water. It is a self-serve lunch.

* * *

Ontario is reckoning upon a yearly revenue from the sale of liquor of about $7,000,000, and it seems probable that this amount will be even exceeded; but the province will be none the richer for it. No nation ever grew rich by drinking whiskey.

* * *

The ground-hog at the Philadelphia Zoo went to sleep on Oct. 5 and never came out of his den until March 5, which is a record for him at Philadelphia. We think we have known people who would almost envy the ground-hog his lengthy slumber.

* * *

China has been moving during recent years and she has built more new roads in the last five years than in any previous fifty years. And over these new roads motor buses are now running. Evidently our celestial friends are beginning to realize that the world is in motion, and they are prepared to move along with it.

* * *

Few people appreciate the value of those little appendages which we call our ears. Prof. A. V. Hill says that the little canals inside the ears are filled with fluid, and, whenever we move, this fluid runs up and down, striking against the ends of three little nerves and enabling us to tell how fast or how slow we are going, and in what direction.

* * *

It is now proposed to erect a Gaelic University in the Highlands of Scotland, and it is intended that it shall be with United States money. The location has not yet been decided upon, but ten million dollars is the amount estimated as necessary for the task, and already favorable opinions have been expressed by United States educationalists in regard to the matter. The language of instruction will be English.

* * *

Aristide Briand, the man who has formed more governments than any other man in France, would like to be numbered with the forty "immortals" who compose the Academie Francaise, but unfortunately he is not strong in either spelling or syntax and this may shut him out of the chosen circle. Poor Aristide, there are many who will know how to sympathize with him!

* * *

The Argentine has a total wheat acreage of nearly 20,000,000 acres, or about as much as the combined wheat acreage of Canada's three prairie provinces, yet the yield is so low that even in years of good crops the returns for the whole country are only about the same as the returns for the one province of Saskatchewan. One trouble lies in the fact that 80 per cent of the farmers in the country own no land.

NORTH PIGEON LAKE

Mr. Bob Armstrong made a business trip to Wetaskiwin on Saturday.

Mr. George Loucks, of Wetaskiwin, spent May 24th renewing acquaintances in this district.

Mr. B. Ouimette was a visitor to the city on Wednesday on business.

The roads to the Lake were in fine condition last week. How about now?

Several cars of visitors from Edmonton spent May 24th at the Lake side.

Mr. F. A. Dowler and son Joey, of Calgary, are guests of Mr. and Mrs. H. A. Dowler and family.

Mr. A. Knight, of Mulhurst, has under construction a commodious lodging house and restaurant, which will be an accommodation to tourists this season.

A dance was held at Colgrove's Ice Cream Parlor on the evening of May 24th.

A dance will be held at Ouimette's Hall, on Saturday evening next.

Seeding has been very backward in this district owing to the land being wet.

Mr. and Mrs. Stirling, of Westlock, spent the week-end with their daughter, Miss Rita, of Spring Hill school.

The ice has but recently disappeared from the Lake, the latest for several years.

Fishing is good at the Lake.

Mr. H. C. Graves spent the week-end with his son Earl at Malmo.

DADDY'S TRACKS

Yee las night it snow a heap,
On the level, two feet deep,
Daylight time—or yust before—
I start out to do my chore,
My kid Gus yell "Me go to,"
I say—"Snow too deep for you,"
But right quick he answers back
"I can step in daddy's track."
Then his mother put his head,
"Gude boy Gus," was all she said,
But I know she thinks lots more,
Ven we start to do dem chore.
Little boys go every day
Vere the old man leads the wy.
Better walk straight like a crack,
Ven boys step in daddy's track.

Author not Known.

The Times invites the cooperation of residents of the country districts. Correspondents from districts not now represented in this paper are requested to write in for correspondence paper and particulars.

SMILES

Golfer: 'Can you let me have a caddie who doesn't giggle all the time?"

Caddie Master: "Well there's old Mac over there hasn't smiled for forty years—but, of course, I can't guarantee him!"—The Passing Show.

Baby Betty had been fretful, and Teddy had heard his mother tell several how cross baby was, but that she would be all right when she cut that first tooth.

"How's Baby Betty this morning?" a neighbor asked of Teddy one morning.

"Her's all right this morning. She dot the toof her has been crying for."—The Boston Herald.

The lazy boy came in, mopping his face furiously.

"There,' said his father, proudly, "I always said you'd learn to work some time. Here's a dollar for you. Now tell your old dad what you've been doing."

The boy grinned as he pocketed the dollar. "I ran all the way home from grandpa's because he said if he could catch me he was going to make me weed the garden."

Hub (disgustedly)—That doctor is a fool!

Wife—What's the matter, dear?

Hub—He said I needed exercise. Think of it, exercise! Exercise for a man who has looked after his own furnace all winter and is now contemplating the opening of the lawn-mower season.—Boston Transcript.

BIG FEATURES FOR COMMUNITY CARNIVAL

Advertising material for the Community Carnival is now on hand and committees are at work posting signs thoughout the district and adjoining towns.

Most of the larger purchases, such as blankets, etc., have been made. This year there will be a Lowney's Chocolate booth. Arrangements for this booth were made with a representative of the Lowney Company. Another new booth for this year will be a ham booth, so altogether the public will have a large range to choose from.

Don't forget, you may win anything from a ham to a Ford. Remember the dates, June 29-30, July 1-2.

Look at the label on your paper.

Neighborhood NEWS

LONE RIDGE

The next regular meeting of the Independent U.F.A. Local will be held in the Lone Ridge Hall at 8:30 on Saturday night, June 4th, when A. P. Moan, of Wetaskiwin, and C. C. Reed, U.F.A. director, will address the meeting. A large attendance is requested.

One of the most enjoyable dances of the season was held at Lone Ridge on Friday last, given by Mr. Herbert Grinde, of E Park S. D., when about 150 people gathered. The bride and bridegroom are highly respected in the community. The hall was prettily decorated in pink and white. A splendid supper was served by the ladies. The bride was dressed in pale green with orange blossom.

WINFIELD NEWS

Spring is here at last and everyone is busy on the land. S. Handbury has wheat up two inches high and it is looking fine.

Mrs. O. Day arrived home last week with her baby son.

Three lumber mills are still hauling lumber.

Homesteads are being taken up fast, and in a few years will be a thing of the past.

Mr. Eric Handbury arrived on the "Albertic" from England, and is visiting his brother, Mr. S. Handbury.

This is quite a busy place, nearly 80 men are working on the gravel trains and railway tracks.

There is also a school to be put up in the fall, which will bring quite a number of people here who have children of school age. We need a church and are in hopes of getting one in the near future.

Mr. T. Devall is busy fencing and planting his garden.

MORE MONEY FOR ALBERTA

Trust and loan companies in Eastern Canada are now prepared to loan money on both city and farm property in Alberta, said Mayor P. E. Osborne on Monday morning. His worship said that he talked to managers of several large financial concerns while he was in the east and found that they were preparing to re-enter the Alberta field.

"Many of these firms have been out of the loaning business in Alberta for a few years, and I found that they are coming back again," said Mayor Osborne. He considered this a very healthy sign.

His worship said that eastern interests are taking considerable interest in the industrial awakening which has been taking place in this province. "This is certainly the ideal time for a forward movement in that connection," said Mayor Osborne. "We must stress our industrial opportunities here."—Herald.

Honeymoon Salad

The bride and groom were visiting in Edmonton. They stopped at a restaurant where a flip young waitress served them.

"Would you care for some honeymoon salad?' she asked.

"What is it?" asked the confused bridegroom.

"Just lettuce alone," replied the waitress.

IMPORTANT APPEAL CASE IS DISMISSED

The case of J. P. Lingrell vs. M.D. of Stocks 363, was heard before the Court of Appeal in Edmonton, this week. This case was tried in Wetaskiwin last November before Mr. Justice Walsh, when the plaintiff's claim was dismissed. The plaintiff was injured while hauling wheat from his home to the village of Hughenden, in the Fall of 1925, when his wagon overturned. He alleged that the road was too narrow and not in good repair, and that this was the cause of the accident.

The plaintiff appealed and the appeal was heard by Chief Justice Harvey and Justices Beck, Hyndman, Clarke and Mitchell. Upon the conclusion of the argument, the appeal was dismissed with costs.

Messrs. Robert Cassidy, K. C., and Alexander Knox appeared for the Plaintiff (Appellant), and Messrs. A. A. McGillivray, K. C., and C. H. Russell appeared for the Municipality.

You would not be ashamed of your stationery if it had been printed at the Times office.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor of The Times.

Dear Sir:

Patronize your own Town. Spend your money at home. These lines are the slogan of every local paper in this Province and deserve to be heeded by every loyal subject. There never was a time when loyalty was such a vital subject as the present.

The rawest deal we have had put over us along these lines for a long time is the rumor that the Committee in charge of the musical entertainment in connection with our coming Jubilee Celebration, has decided to resort to the Mail Order System of getting outside talent to take the remuneration offered and spend it away from the Home Town.

Wetaskiwin has the makings of a good band and a good orchestra second to none in this part of the Province, all they need is encouragement and a little financial aid to perfect them. An opportunity has arisen to provide this and is turned down, and we wonder why Bolshevism prevails. It is enough to make every loyal citizen and sympathizer with our own boys boycott the whole catchpenny program proposed in connection with this celebration. We have always understood that the object of the Rotary and kindred Clubs was to bring out Home Talent as well as Home opportunities, and so create a spirit of optimism in our own community that will attract and not repel business and social activities.

If you must knock, use a hammer and build something.

Yours truly,

E. C. MOORE,

Rural Route, Wetaskiwin.
